

CARDIFF NORTH PUBLIC SCHOOL

Publishing student information

The school/Department may publish information about your child for the purposes of sharing his/her experiences with other students, informing the school and broader community about school and student activities and recording student participation in noteworthy projects or community service. This information may include your child's name, age, class and information collected at school such as photographs, sound and visual recordings of your child, your child's work and expressions of opinion such as in interactive media.

The communications in which your child's information may be published include but are not limited to:

Public websites of the Department including the school website, the Department's intranet (staff only), blogs and wikis Departmental publications including the school newsletter, annual school magazine and school report, promotional material published in print and electronically including on the Department websites, official departmental and school Skoolbag accounts.

Parents should be aware that when information is published on public websites, it can be linked to by third parties and may be discoverable online for a number of years, if not permanently. Search engines may also cache or retain copies of published information.

Permission to publish

I have read the information about publishing student information (above) and for the school/Department to publish information about my child in publicly accessible communications. This permission remains effective until I advise otherwise.

I give permission

I do not give permission

Online services

The Department provides students with filtered access to the Internet. Students also have access to a secure learning portal. After logging into their portal, students have access to a personalised email account and online applications. These resources enable students to collaborate with peers, publish online, and securely store their data for access within, or outside of, school. When accessing some online services, data, including your child's name and files they have saved, are stored with the online application service provider in a location outside of the Department's network. The Department has worked closely with online application providers to assess privacy impacts and data security controls.

Information about student privacy for parents is available from <http://www.schools.nsw.edu.au/learning/learning-tools/index.php> or from your school. For my child to have access to online services provided by the Department. This permission remains effective until I advise the school otherwise.

I give permission

I do not give permission

Student Data and 3rd Party sites

There are a number of non-Departmental websites that support teaching and learning, such as Mathletics and Seasaw. From time to time these websites require a student's personal information including their name, date of birth and class to be entered in order for them to use the resource.

Some of these websites make it clear parental permission should be obtained where the user is under 18. Irrespective of this, where a student's personal information is entered by a teacher, it may be held to be a disclosure within the meaning of NSW privacy law.

If permission is declined steps will be taken to identify an alternative education program for the student concerned.

I give permission

I do not give permission

Child Protection (PDHPE) Lessons

Child Protection Lessons are conducted by the teacher as required by the New South Wales Department of Education. The aim of child protection education in primary schools is to assist students in developing skills in recognising and responding to unsafe situations, seeking assistance effectively and establishing and maintaining relationships.

I give permission

I do not give permission

Photos and Digital Media used by Outside Agencies

Photos and digital media of my child may be used by outside agencies taken during various school activities eg. sponsors / promotional material.

I give permission
